

# Condat Search Appliance

The search engine  
for your website.

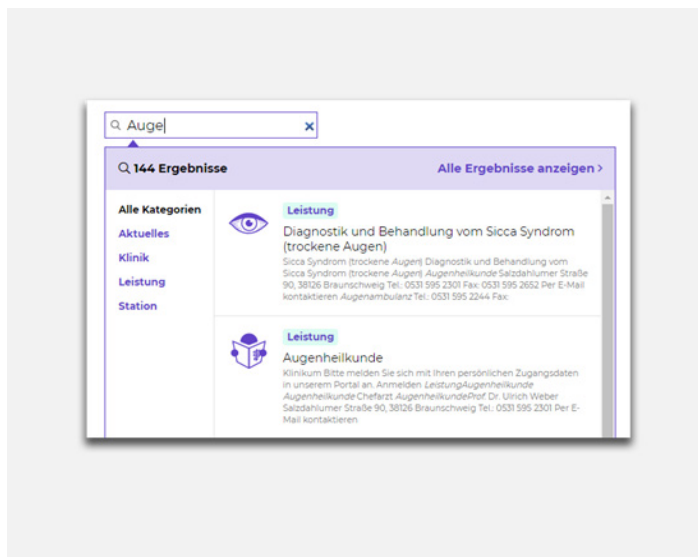

# Find quickly instead of searching forever.

Finding information on websites can be really challenging. Result quality and user friendliness of the search function often leave something to be desired and worsen the overall user experience. With the **Condat Search Appliance**, you can enhance your site search substantially, providing a unified, intuitive access to all your web content.

Powered by  
 **elasticsearch**

## Intelligent search.

The **Condat Search Appliance** understands your visitors. Automatic correction of errors and type-ahead make the search process as easy as possible. Results are sorted by relevance and can be narrowed down using dynamically generated facets.

## Simple administration.

The **Condat Search Appliance** goes easy on your IT resources. After setup, the appliance regularly crawls your sites and indexes all content. In the admin cockpit you define synonyms for search terms, manage blacklists and influence the ranking of search results in order to promote content.

# Features at a glance.

## Admin Cockpit

In the Admin Cockpit, you can quickly configure the **Condat Search Appliance** without any programming knowledge.

## Connectors

The **Condat Search Appliance** analyzes and indexes metadata and texts from more than 1,000 common data formats.

## Rights & Roles

The integrated rights and roles concept of the **Condat Search Appliance** ensures secure operation with different user groups.

## HTML rendering

With the HTML rendering engine, the search results can be individually and flexibly adapted to your corporate design.

## Assisted Search

Support visitors with features such as search suggestions, type-ahead, spell check and faceted results.

## Scalability

The CSA is based on the leading Open Source Search Framework Elastic and scales flexibly in time with your requirements.

## Operating models

You decide which operating model you want to run: hardware appliance, on-premise or cloud service.

## GSA replacement

Would you like to replace your discontinued search appliance from Google? With the CSA you can change quickly and easily.

# Benefits for your business.

## Higher productivity.

The search for a site must be easy to use and deliver relevant results. With the **Condat Search Appliance**, users can find what they are looking for faster.

## Faster implementation.

With the **Condat Search Appliance** you can equip new sites and online services with the right search function faster and easier.

## Less effort.

The **Condat Search Appliance** can be installed quickly, requires little maintenance and automatically adapts to new content.
